## uk music video awards 18

ten years on from the very first uk music video awards, we're delighted to be still celebrating the best work and top talent in music video and music film making.

this year more than 1800 videos were submitted for judging. 400 jury members were invited to vote in round 1 and the top-voted entries were reviewed by 100 industry professionals in a series of live judging panels. the entries for the individual awards for director, new director, producer, commissioner, artist and production company, based on a body of work from the past year, were voted on by jury members.

the ukmva team would like to thank everyone who entered, and everyone who took part in the judging and voting to deliver the results we're celebrating tonight. congratulations to all our nominees and winners, and thank you for another amazing year of music video creativity.

the ukmva team
